Gold	: 54%
S&P 500	: 125%

Bitcoin (BTC) provided multifold profits to investors in last 7 years

Digital Currencies : 2021 and beyond...

- Continued conversation about cryptocurrency regulation.
- Lawmakers in Washington D.C. and across the world are trying to figure out how to establish laws and guidelines to make cryptocurrency safer for investors.

CRYPTO REGULATION

- Bitcoin is a good indicator of the crypto market. The coin has had a wild ride and touched \$60,000.
- Industry experts predict that it's more likely to rise to \$75,000 than fall to \$25,000.

BITCOIN OUTLOOK

As people's interest has skyrocketed, 2021 has been a 'breath through' year for cryptocurrency. This has become a hot topic not only among investors, but in popular culture too

FUTURE OF CRYPTO

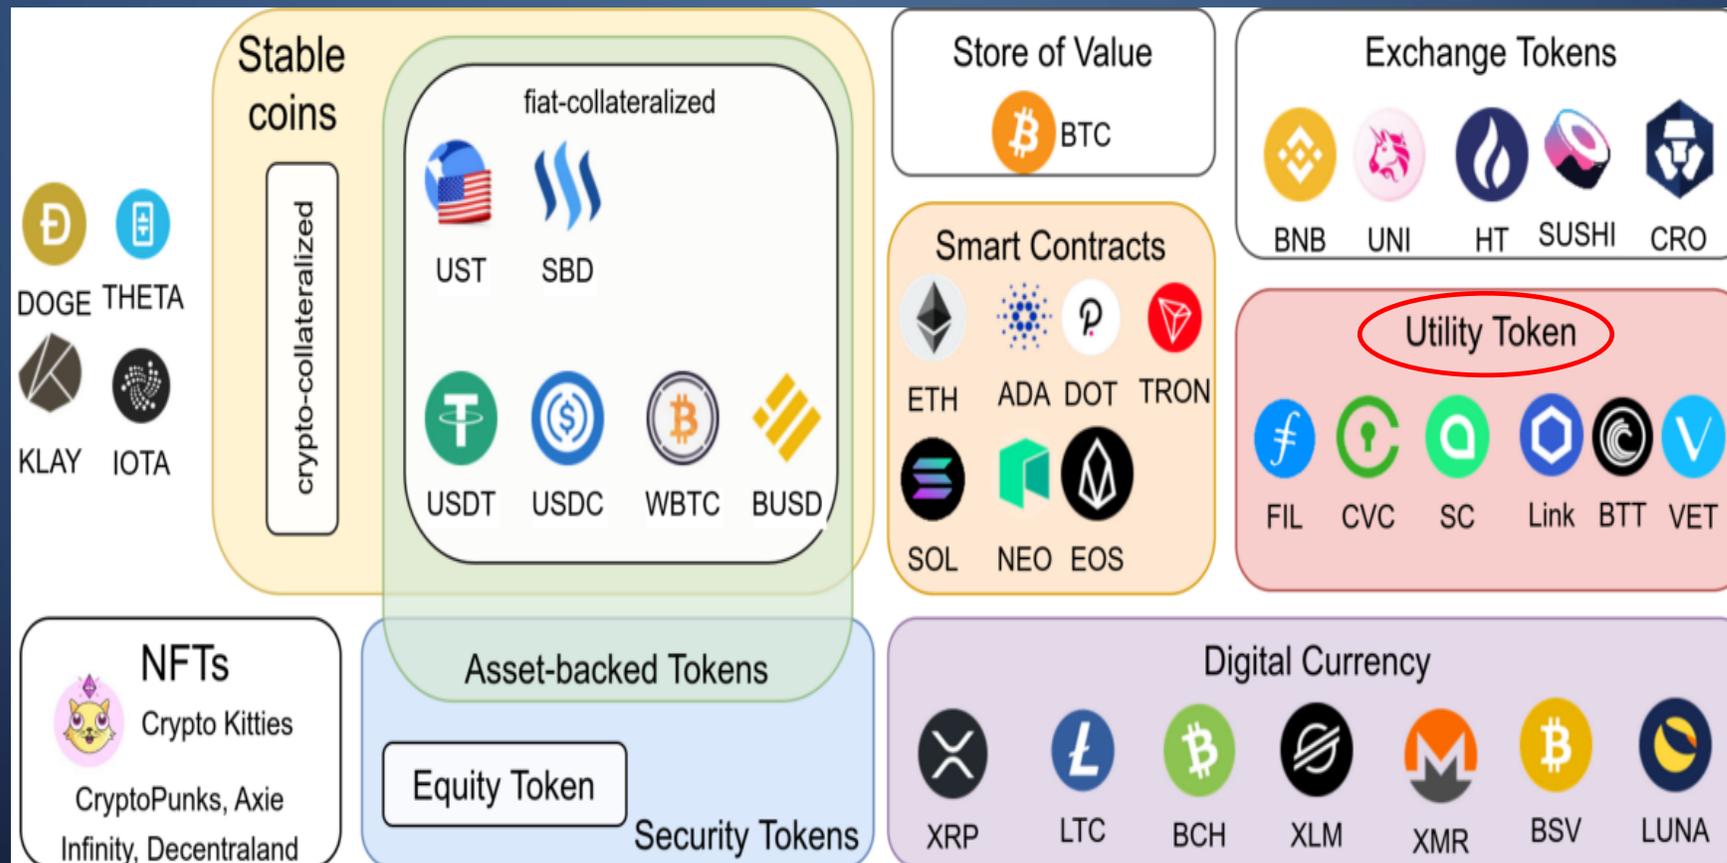

- Mainstream companies across industries have taken interest and, in some cases, invested in cryptocurrency and blockchain.
- Fintech companies, like PayPal, have adopted crypto by allowing users to buy on their platforms. Tesla continues to hold billions in crypto assets.

INSTITUTIONAL ADOPTION

- Crypto exchanges are urging the government to define cryptocurrencies as digital assets and not as currency.
- Although prices are fluctuating, they have a strong future.
- Digital assets are becoming an effective means of payment.
